Medical Information

Children with Special Needs or Medication Requirements: To help and protect your child, we need to know if a child has a learning disability or any medical issues such as but not limited to allergies. Please include this information below. We do not have medical staff on premise. Therefore, if your child may require the administration of an EpiPen, **either** the child must be permitted to self-administer, or a parent/guardian **must** be present during class time or activity.

Please complete the "*Self-Administration of Medication Permission & Release Form*" if the child may self-administer. In an emergency, if a parent/guardian may not be present during religious education hours or the child is unable to self-administer you must complete the "*Authorization to Administer Epinephrine.*" These forms are available at the religious education office and on the parish website under the religious education "Forms" section. All completed forms must be returned with the registration form.

Medical/Special Needs Information *(please complete this section or attach detailed explanation)*

I authorize the Director of Religious Education to share this Medical and/or Special Needs information with the child's catechist and class aide.
